SUPERIOR LASER CLEANING

*"Keeping Queensland beautiful"*

# OUR E.S.G

## ENVIRONMENTAL COMMITMENT

At Superior Laser Cleaning, sustainability is at the heart of what we do. Traditional cleaning methods rely heavily on harsh chemicals, abrasive blasting, and excessive water usage. By contrast, our advanced laser cleaning technology provides a safe, non-toxic, and environmentally friendly solution.

- Zero chemicals – Our process eliminates the need for hazardous cleaning agents.
- Minimal waste – Only the unwanted material is removed, leaving surfaces intact and reducing landfill.
- Water conservation – Unlike high-pressure or chemical cleaning, laser cleaning requires no water.
- Energy efficiency – Our modern equipment is designed to reduce energy consumption while achieving superior results.
- Sustainable surfaces – With Nanoman protective coatings and Stellmann non-slip surface treatments, we extend the life of assets, reducing maintenance cycles and long-term environmental impact.

Through these practices, we help our clients lower their carbon footprint, improve resource efficiency, and align with global sustainability goals

## SOCIAL RESPONSIBILITY

We are committed to creating a positive impact for our employees, customers, and communities.

- Employee well-being – We prioritise workplace safety by eliminating exposure to toxic chemicals and airborne contaminants.
- Training & development – Our staff receive ongoing technical training to ensure safe, effective, and responsible use of laser systems.
- Community impact – By reducing pollutants and waste, we contribute to healthier environments where people live and work.
- Customer value – Our solutions save businesses money by reducing maintenance costs and asset replacement cycles, creating long-term shared value.

## GOVERNANCE & ETHICS

Superior Laser Cleaning operates with transparency, integrity, and accountability.

- Compliance – We adhere to all relevant Australian and international environmental, safety, and industry regulations.
- Innovation leadership – We invest in research and partnerships to ensure our technology remains cutting-edge and compliant with best practices.
- Ethical conduct – We are committed to fair business practices, responsible supply chains, and building trusted long-term relationships with our clients.
- Continuous improvement – ESG principles guide our decision-making and long-term strategy.

By combining laser cleaning technology with Nanoman nanotechnology coatings and Stellmann safety solutions, we deliver a modern, sustainable, and responsible approach to surface treatment. Our solutions:

- Reduce environmental harm.
- Protect people and communities.
- Support ethical and responsible business practices.

Superior Laser Cleaning is proud to be a sustainability partner for clients who want to lower costs, extend asset life

# SERVICES & COMPANY VALUES

## State of the Art Cleaning Equipment

Our cutting-edge cleaning equipment ensures efficient and precise cleaning, delivering the best-desired results without causing any harm to the environment.

## Safe and Effective Cleaning

We utilize a top of the line European built Laser to ensure safe and effective cleaning of all hard substrates, including concrete, brick, and steel, while removing corrosion and oxidation.

## Transparency

Transparency is fundamental to our approach. We believe in open communication, honesty, and integrity, fostering trust and confidence in our services and partnerships.

## Innovation

Innovation is at the heart of everything we do. We are committed to pioneering new cleaning techniques and technologies that elevate the standards of cleaning, more so than traditional methods like sandblasting or pressure washing ensuring optimal results for our clients.

# COMPANY DIVERSITY

---

## WHY CHOOSE US? WHAT SETS APART FROM OUR COMPETITORS?

Choose us for the products and services we can deliver that no other cleaning company offers, far better than traditional cleaning methods like sandblasting or power washing, we offer ISO standard cleaning and a list of products including surface protection that can last up to seven years, in turn this allows us to offer a time warranty on all our surface protection and graffiti prevention, ultimately in the long run saving both time and money.
